

Ambulatory Infusion Center

The Ambulatory Infusion Center at Capital Neurological Associates, P.C. provides a safe and patient centered alternative to receiving infusion treatments in the hospital or through a home infusion provider.

Equipped with the latest technologies and therapies, the Ambulatory Infusion Center is staffed with an experienced infusion nurse with expertise in Neurology.

Safe Environment

Safety for our patients is a primary concern and there is always a physician on-site when infusions are being administered. We perform all infusions according to your provider's recommendations and preset protocols. This ensures that the rate of infusion and medication is tailored to your specific condition. Safety procedures are in place in case of an adverse reaction to a medication. In the rare case of a medical emergency, our practice is just minutes from the nearest hospital emergency room.

Comfort and Convenience

The Ambulatory Infusion Center at Capital Neurological Associates, P.C. tries to make your visit as convenient and stress-free as possible. To help pass the time while receiving treatment, the Center features a TV, comfortable recliners and complimentary beverages. We also have numerous resources for patient education.
